### ceralsio ceramic properties

Ceralsio is a beautiful, hard-wearing and versatile range of ceramic surfaces, built for the demands of modern living.

Thanks to its lack of pores, Ceralsio is completely impermeable and highly stain resistant. Its many benefits also include a strong resistance to scratch, heat and wear and tear. As a very hard material it is suitable for kitchen and bathroom countertops, flooring and wall-cladding. Its colour and texture remain unchanged even when Ceralsio is used outdoors, since it can withstand the effects of ultra-violet rays without its surface appearance being altered in any way.

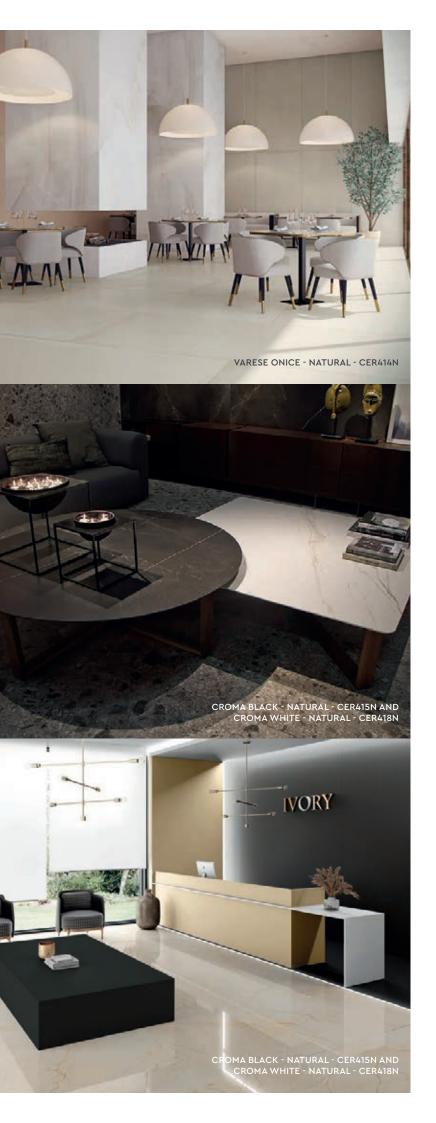

Ceralsio has been developed by using the highest grade of ceramic material. The selection and fusion of the purest of materials, compacted at a force of 4,000 kg/m2 and sintered at temperatures of over 1200°C make it a porcelain surface. The highly innovative manufacturing process creates unique, unrepeatable finishes, thanks to the use of the high-precision "Full Digital" printing system.

Thanks to its properties, Ceralsio guarantees versatile, eco-friendly, innovative surfaces that help to make life easier and more convenient.

For more information on features and advantages of Ceralsio, see page 160.

### 6mm

6mm Ceralsio is both lightweight and durable making it ideal for floors and wall cladding.

Its natural UV resistance means it can also be used outdoors and its non porous properties make it easy to keep clean.

### 1211111

12mm Ceralsio is perfect for kitchen and bathroom counter tops giving a seamless streamlined look.

Hygienically clean and maintenance free Ceralsio is a stress free surface that really looks the part.

### 20mm

20mm Ceralsio is ideal for kitchen and bathroom work surfaces in high traffic areas.

Ceralsio has a high resistance to knocks and impacts and the 20mm surface offers even more durability.

### colour collection

The Ceralsio collection has been inspired by nature itself and includes classic surfaces such as Soft White, right through to sophisticated, strong designs such as Calacatta Extreme and Marquina. Ceralsio is available in a large range of colours, in 6 mm, 12 mm and 20 mm thicknesses, and in a natural, textured, satin or polished finish.

## croma black

Simplistic, sophisticated and utterly striking, Croma Black taps into the trend for the darker side of interiors, providing the perfect contrast for bold pops of brightness. Combine Croma Black with any other colour or material, an enviable blank canvas available in a Natural finish.

Dimensions	Thickness	Available finishes	Slab weight	Weight per m²
320 x 160 cm 126" x 63"	12 mm	Natural	165 kg	32 kg
320 x 160 cm 126" x 63"	20 mm	Natural	275 kg	53 kg

#### CROMA BLACK - NATURAL CER415N

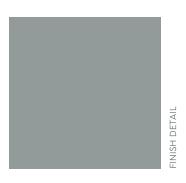

### croma grey

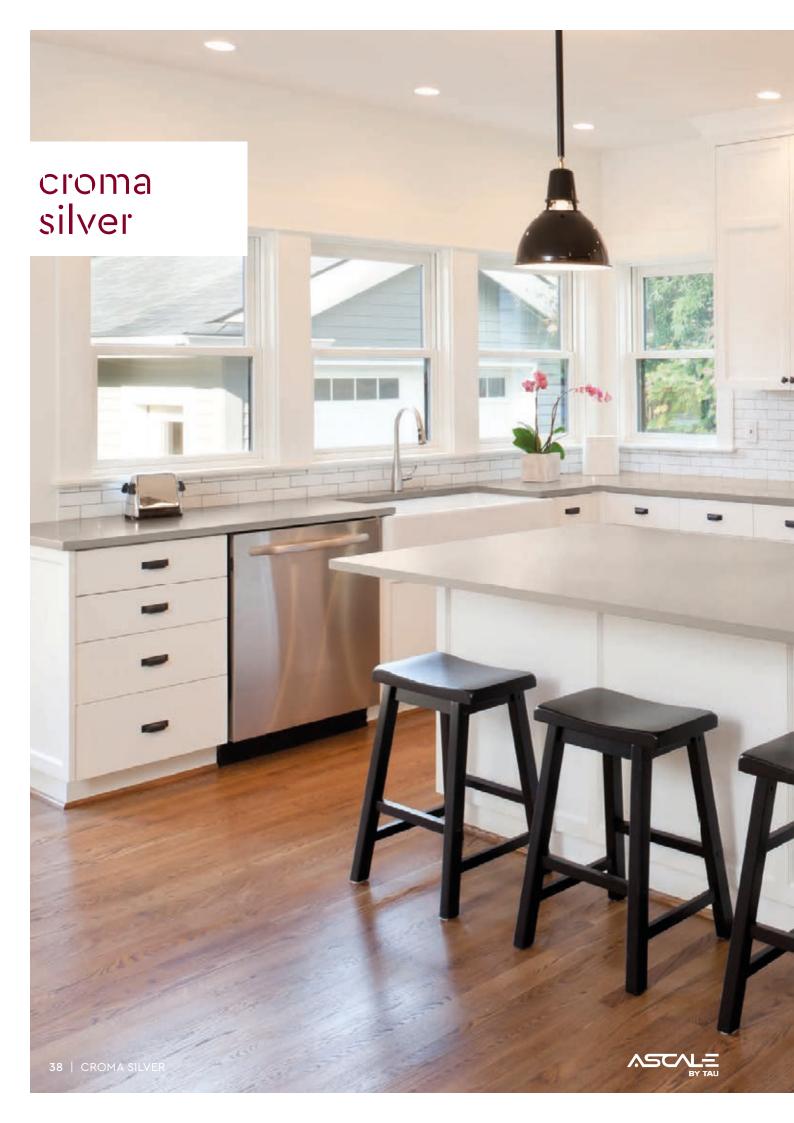

When simple is best, Croma Grey delivers. Perfect for colour blocking, marry this ceramic surface with bright or dark tones for contrast or comparison; the possibilities are endless but the end results will always be impactful.

Dimensions	Thickness	Available finishes	Slab weight	Weight per m²
320 x 160 cm 126" x 63"	12 mm	Natural	165 kg	32 kg
320 x 160 cm 126" x 63"	20 mm	Natural	275 kg	53 kg

### CROMA GREY - NATURAL CER416N

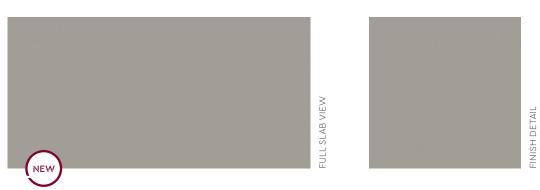

## croma silver

The perfect partner for on-trend white, black and grey in interior design, Croma Silver brings bling to the indoors in a very elegant way. This colour block of a surface is the perfect backdrop for injecting personality and character to a space in the most individual of ways. The options with Croma Silver are practically endless.

Dimensions	Thickness	Available finishes	Slab weight	Weight per m²
320 x 160 cm 126" x 63"	12 mm	Natural	165 kg	32 kg
320 x 160 cm 126" x 63"	20 mm	Natural	275 kg	53 kg

### CROMA SILVER - NATURAL CER417N

### croma white

Bright, light and supremely durable, Croma White is the ultimate blank canvas for any setting. Dress it up with pops of colour and the addition of contemporary materials or opt for a pared down look with soft tones of grey and black - the choice is yours with Croma White but the end result will always be a sense of calm, space and tranquillity.

Dimensions	Thickness	Available finishes	Slab weight	Weight per m²
320 x 160 cm 126" x 63"	12 mm	Natural	165 kg	32 kg
320 x 160 cm 126" x 63"	20 mm	Natural	275 kg	53 kg

### CROMA WHITE - NATURAL CER418N

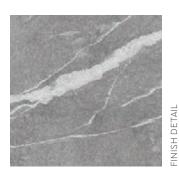

# cardoso grey

Combining two of the biggest trends in design – grey and marble tones, Cardoso Grey brings moody shades and dark hues to the kitchen in the most stylish of ways. In a Natural finish, Cardoso Grey makes bringing nature indoors a real pleasure.

Dimensions	Thickness	Available finishes	Slab weight	Weight per m²
320 x 160 cm 126" x 63"	6 mm	Natural	83 kg	16 kg
320 x 160 cm 126" x 63"	12 mm	Natural	165 kg	32 kg

### CARDOSO GREY - NATURAL CER419N

ceralsio ceramic surfaces | 49

# astral gris

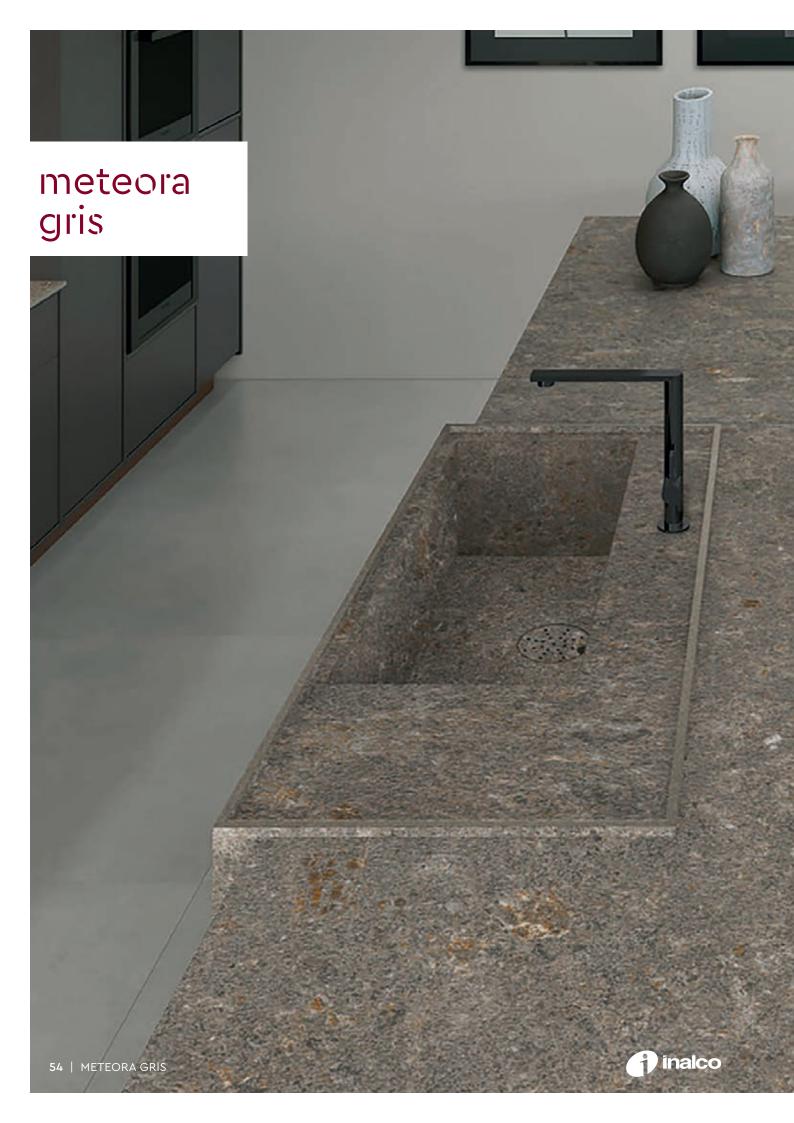

Offering a contemporary take on timeless grey, Astral Gris is ideally suited to modern and classic interiors, bringing elegance and a sense of calm to any setting. The gentle patterning that runs throughout the surface adds visual interest at every turn, perfect for kitchen worktops, splashbacks and as a highly durable flooring solution.

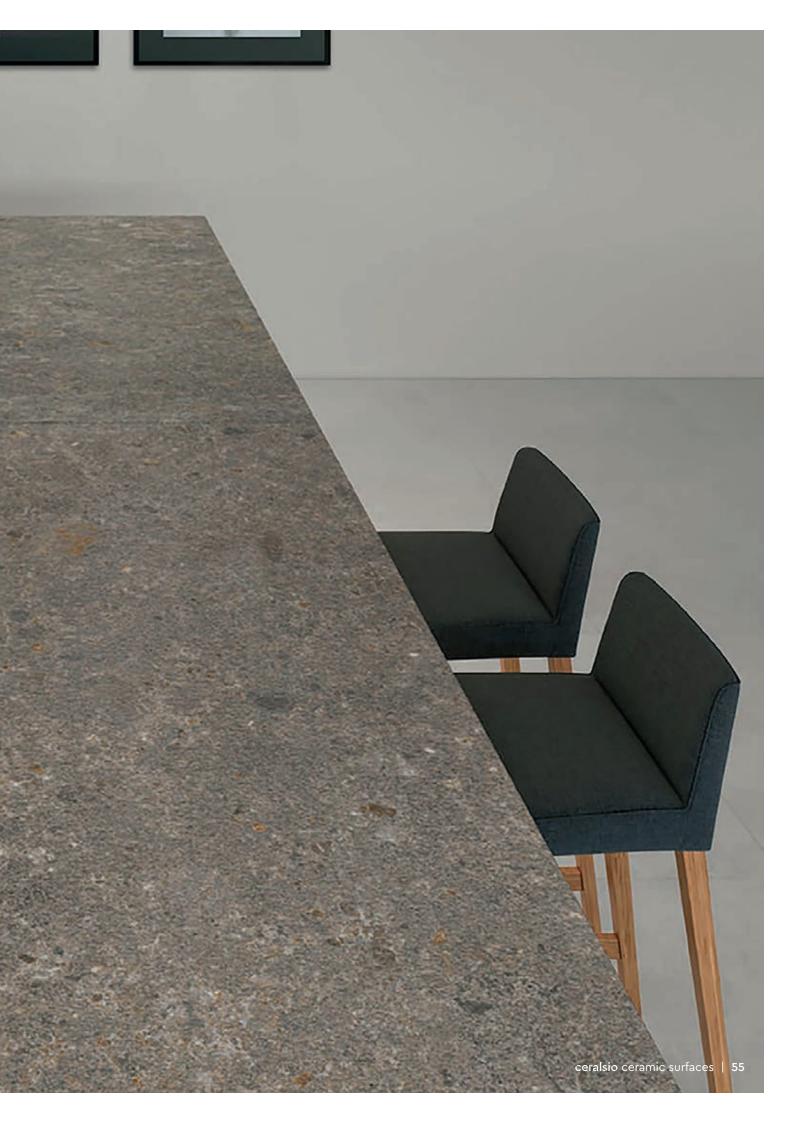

Dimensions	Thickness	Available finishes	Slab weight	Weight per m²
320 x 150 cm 126" x 59"	6 mm	Natural	75 kg	16 kg
320 x 150 cm 126" x 59"	12 mm	Natural	150 kg	32 kg

### ASTRAL GRIS - NATURAL CER420N

## meteora gris

Bring nature indoors with Meteora Gris, a surface with a distinctive stone-effect appearance that combines wonderfully with a whole range of colours and materials in the modern home. Available in a natural or textured finish, the ceramic surface reflects the trend for dark tones in interior design, creating a strong and sophisticated look that is rugged in its structure.

Dimensions	Thickness	Available finishes	Slab weight	Weight per m²
320 x 150 cm 126" x 59"	6 mm	Textured	75 kg	16 kg
320 x 150 cm 126" x 59"	12 mm	Textured	150 kg	32 kg
320 x 150 cm 126" x 59"	20 mm	Natural	250 kg	53 kg

FINISH DETAIL

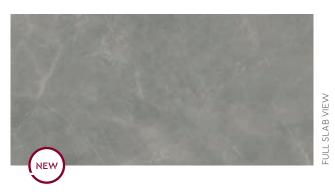

# storm gris

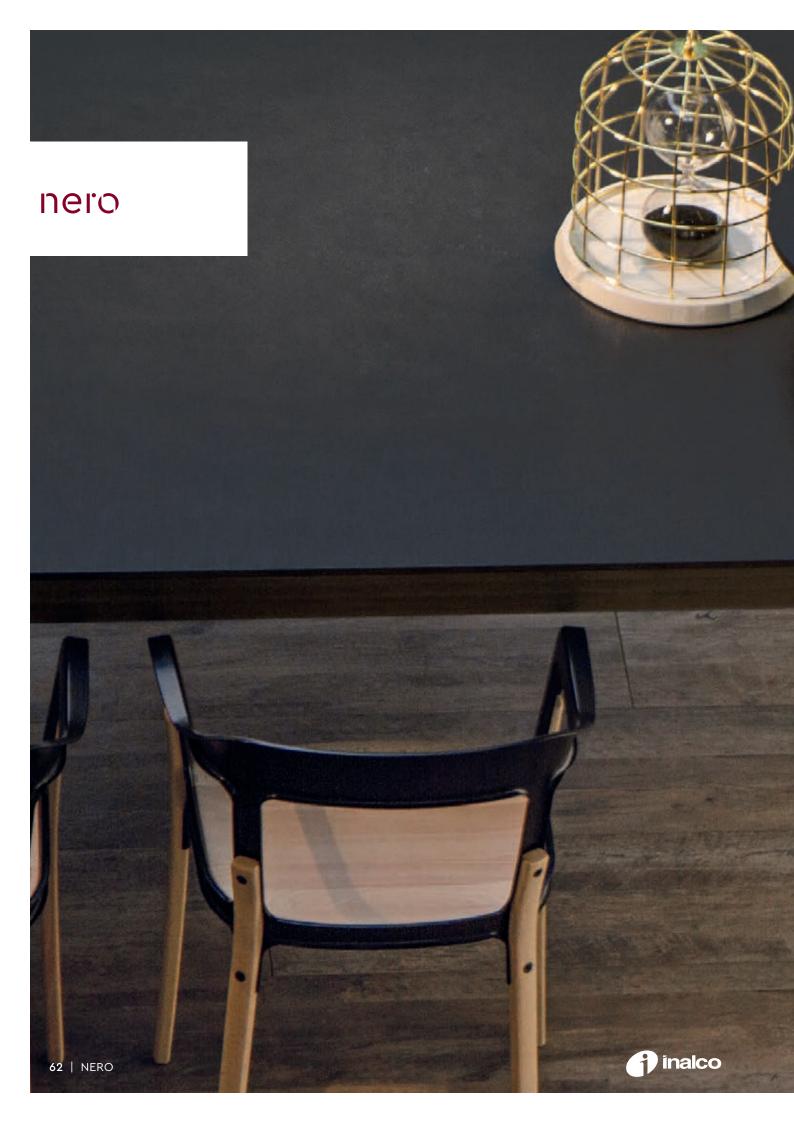

Dark tones are a huge trend in interior design and Storm Gris carries the look off to perfection. An atmospheric surface that blends equally well with natural materials and bold and bright pops of colour, Storm Gris is available in a natural finish, with a light patterning that dances across the surface to bring a sense of character to proceedings.

Dimensions	Thickness	Available finishes	Slab weight	Weight per m²
320 x 150 cm 126" x 59"	6 mm	Natural	75 kg	16 kg
320 x 150 cm 126" x 59"	12 mm	Natural	150 kg	32 kg

### STORM GRIS - NATURAL CER422N

### nero

Combining brilliantly with on trend materials from timber to metal, Nero Natural is a surface that is inspired by nature, with a simple elegance that gives it a timeless quality. This ceramic surface is highly durable and therefore the ideal choice in terms of practicality, for environments such as the kitchen and bathroom.

Dimensions	Thickness	Available finishes	Slab weight	Weight per m²
320 x 150 cm 126'' x 59''	6 mm	Natural	75 kg	16 kg
320 x 150 cm 126'' x 59''	12 mm	Natural	150 kg	32 kg

### NERO - NATURAL CER104N

### bianco silver

Boasting all the beauty of marble with none of the maintenance issues, Bianco Silver is a ceramic surface that lends an air of luxury to whichever setting it is chosen for. The patterned veining gives the material an air of individuality, while it's easy to care for nature makes this a practical choice too.

Dimensions	Thickness	Available finishes	Slab weight	Weight per m²
320 x 160 cm 126" x 63"	6 mm	Natural / Polished	83 kg	16 kg

## umbria

With a growing trend for darker materials in interior design, Umbria brings an air of sophistication to any setting. Inspired by the natural beauty of marble, with all the ease of maintenance that ceramic brings, the rich, dark tones of Umbria are offset by a lighter fleck running throughout the surface, while its textured finish is wonderfully tactile.

Dimensions	Thickness	Available finishes	Slab weight	Weight per m²
320 x 150 cm 126'' x 59''	6 mm	Textured	75 kg	16 kg
320 x 150 cm 126'' x 59''	12 mm	Textured	165 kg	32 kg
320 x 150 cm 126'' x 59''	20 mm	Textured	250 kg	53 kg

#### UMBRIA - TEXTURED CER210T

## cervino

Bringing elegance to any interior, Cervino features an authentic and individual character thanks to its marble-inspired patterning on a crisp white background. Available in a satin finish, the surface is soft to the touch, bringing a sense of luxury to any interior.

Dimensions	Thickness	Available finishes	Slab weight	Weight per m²
320 x 150 cm 126'' x 59''	12 mm	Satin	150 kg	32 kg

#### **CERVINO - SATIN** CER409S

## ferro vecchio

Adopting the appearance of poured concrete, Ferro Vecchio gives a softer alternative to the often harsh lines of industrialinspired designs. Whether combined with neutral shades or used to contrast with bold colours, this ceramic surface will be a stand-out feature of any room. Available in a natural finish.

Dimensions	Thickness	Available finishes	Slab weight	Weight per m²
320 x 150 cm 126'' x 59''	6 mm	Natural	75 kg	16 kg
320 x 150 cm 126'' x 59''	12 mm	Natural	150 kg	32 kg

320 x 160 cm 126'' x 63''	12 mm	Natural	165 kg	32 kg

#### **SOFT WHITE - NATURAL** CER202N

## features and advantages

#### **RESISTANT TO WEAR AND TEAR**

Thanks to Ceralsio technical characteristics, this is the most highly resistant countertop on the market, ideal for use indoors and out.

#### HIGHLY SCRATCH RESISTANT

Food can be cut directly on top of the surface without it being damaged. Even so, ceramic cutting boards, like Ceralsio, or boards made of other materials should be used for cutting.

#### **RESISTANT TO FROST AND ICE**

Its low water absorption rate of less than 0.2% makes it ideal for outdoor environments where frost and ice is common.

#### **HEAT RESISTANT**

Ceralsio does not burn or give off smoke or toxic substances when exposed to high temperatures. Hot cooking utensils like frying pans or saucepans can be rested on its surface without it being damaged.

#### **IMPACT RESISTANT**

Ceralsio has a high resistance to knocks and impacts by everyday objects or utensils. (Everyday objects found in kitchens, restaurants, laboratories etc).

#### **EASY TO CLEAN AND CARE FOR**

No extra care or special products are needed to clean it. Stains can be removed with water or mild cleaning products.

#### **STAIN RESISTANT**

Ceralsio is not affected by products like solvents, detergents, bleach, oil, vinegar or citrus juice, provided that the stains are cleaned away within 24 hours.

#### **HYGIENE**

Because it is a non-porous surface, the build-up of bacteria or mould is prevented, and food can be placed in direct contact with it.

#### **RESISTANT TO ULTRA-VIOLET RAYS**

Ceralsio surfaces are colourfast despite the passing of time, even when used outdoors.

#### **BENDING STRENGTH**

It can withstand a high weight without bending or becoming deformed, with the entire surface remaining flat.

#### **10-YEAR WARRANTY**

Visit ceralsio.co.uk to register your surface and activate your warranty.

# technical characteristics

TECHNICAL CHARACTERISTICS ISO 13006:1998		REFERENCE STANDARD	REQUIRED VALUE	MEAN VALUE
	Water absorption	EN-ISO 10545-3	≤ 0,5 %	≤ 0,2 %
	Breaking strength	EN-ISO 10545-4	≥ 1,300 N	Standard overtakes
	Bending strength	EN-ISO 10545-4	≥ 50 N / mm²	Standard overtakes
	Resistance to impact	EN-ISO 10545-5	-	> 0.80
PHYSICAL CHARACTERISTICS	Resistance to deep abrasion	EN-ISO 10545-6	≤ 175 mm³	≤ 135 mm³
	Resistance to fire	UNE-EN 13501:1:07 + A1:2010	-	A <sub>1</sub>
	Lineal thermal expansion	EN-ISO 10545-8	-	≤ 9 x 10 <sup>-6</sup> K <sup>-1</sup>
	Thermal shock resistance	EN-ISO 10545-9	-	Resist
	Mohs surface hardness	EN 101	Min. 5	6 - 9
	Frost resistance	EN-ISO 10545-12	-	Resist
CHEMICAL CHARACTERISTICS	Resistance to household cleaning products and swimming pool additives	EN-ISO 10545-13	-	-
	Resistance to acids and bases in low concentration	EN-ISO 10545-13	-	-
	Resistance to staining	EN-ISO 10545-14	Class 3 Min.	Class 5

Ceralsio is a non-toxic environmentally-friendly product that complies with European legislation under current EU regulation no. 305/2011 of the European Parliament and the Council and specific standards applicable to the tile sector.

All first-choice Ceralsio ceramic surfaces comply with and even surpass ISO standards 13006:1998 and EN 14411:2003 regarding the definition, classification, characteristics and marking of ceramic tile materials.

Ceralsio also has a Quality Control System, which it applies to the whole manufacturing and storage process.

### care and maintenance

#### **RECOMMENDED USES**

For the ceramic slabs to conserve their original beauty, these guidelines should be followed:

- · Use wooden chopping boards to cut food. Ceramic knives have a similar hardness to the countertop and so they should not be used to cut things on its surface.
- In spite of being a material of great hardness, it is not recommended to clean the Ceralsio surface with materials whose hardness is higher than ceramic.
- Countertops with polished finishes or dark colours are easier to scratch and so metal objects should not be dragged directly across their surfaces.

#### **KNOCKS**

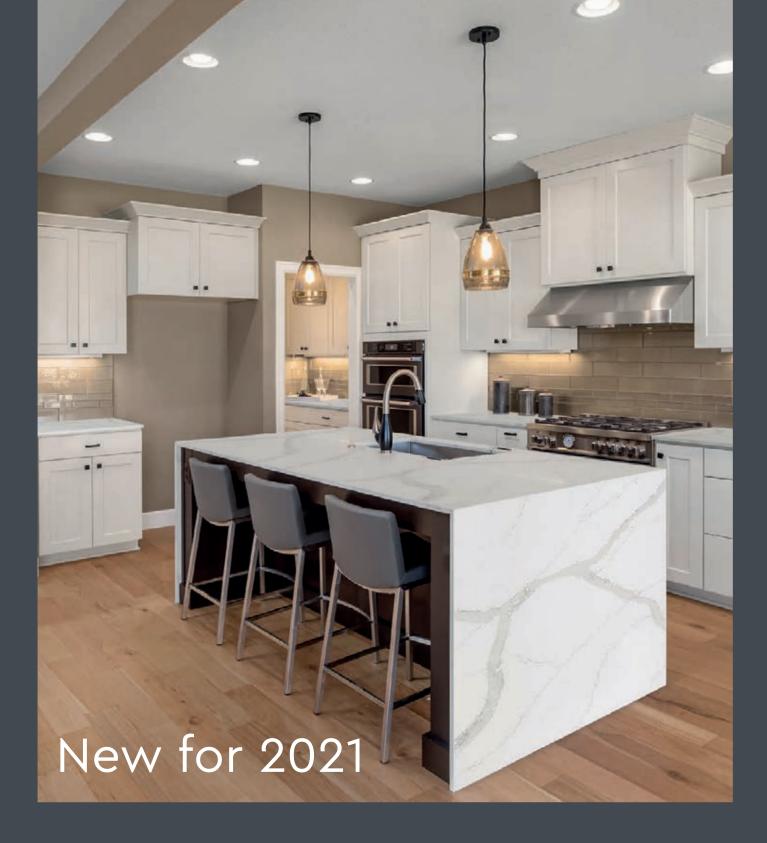

Ceralsio ceramic slabs stand out for their hardness and resistance. Even so, care must be taken with those parts of the worktops and countertops most exposed to knocks, such as corners, edges and bevel edges.

#### **CLEANING**

Ceralsio has a non-porous surface and so it is easy to clean. Even so, a series of guidelines should be followed to remove everyday stains typically found in kitchens and bathrooms.

The stains should be cleaned away as soon as they occur, using a cloth moistened with water, to prevent them from drying. In the case of dry stains, moisten the area with hot water in order to soften the dirt and then remove it with a clean cloth. Before any type of special cleaning product is used on ceramic slabs with a polished finish, test it out on an area that is not very visible to check that the shine or colour is not affected by the product.

The recommendations above cannot reflect all possible applications or factors involved in the on-site use and installation of our products. As a result, before they are used, the project manager, architect or materials specifier should make sure that these materials and any others used to lay them are suitable for the intended use, being fully responsible for the outcome of their use. CRL Stone cannot be held liable if these recommendations are not followed or if the slabs are wrongly laid. No claims will be accepted for slabs once they have been laid.

Inspired by natural stones and the lean for industrial style in the kitchen and the bathroom, our new range offers a modern twist on a design classic that will work in any room.

All surfaces are non-porous, scratch resistant, heat resistant and easy to care for.
